# More Efficient Bottom-Up Multipattern Matching in Trees (Classic Reprint)

By Jiazhen Cai

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from More Efficient Bottom-Up Multipattern Matching in Trees Pattern matching in trees is fundamental to a variety of programming language systems. However, progress has been slow in satisfying a pressing need for general purpose pattern matching algorithms that are efficient in both time and space. We offer asymptotic improvements in both time and space to Chase s bottom-up algorithm for pattern preprocessing. A preliminary implementation of our algorithm runs ten times faster than Chase s implementation on the hardest problem instances. Our preprocessing algorithm has the advantage of being online with respect to pattern additions and deletions. It also adapts to favorable input instances, and on Hoffmann and O Donnell s class of Simple Patterns, it performs better than their special purpose algorithm tailored to this class. We show how to modify our algorithm using a new decomposition method to obtain a space/time tradeoff. Finally, we trade a log factor in time for a linear space bottom-up pattern matching algorithm that handles a wide subclass of Hoffmann and O Donnell s Simple Patterns. I. Introduction Pattern...

Reviews

Definitely among the finest publication I actually have possibly study. I could possibly comprehended almost everything using this published e book. Once you begin to read the book, it is extremely difficult to leave it before concluding.
-- Rosamond Runolfsdottir

Extremely helpful to any or all category of individuals. It really is rally fascinating throgh studying time period. I am just quickly could possibly get a pleasure of reading a composed ebook.
-- Lawrence Keeling
