Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Mississippi Law Journal, Vol. 14: A Symposium on Administrative Law; April 1942 Despite this clear statement of the challenge, his teachings at Columbia, and the similar teachings of Professor Maitland at Cambridge in the latter part Of the last century,³ it was not until 1915 that one Of England s most noted authorities came reluctantly to admit the existence in England of something vaguely resembling the French droit administratif, with which he had contrasted the English Rule Of Law so sharply.⁴ We now know that English Administrative Law had its beginning at least as early as the 1830 s with the factory laws and the unique relationships between the central and local governmental authorities during that period.⁵ The wisdom and necessity Of administrative proceedings which involve adjudication Of the rights of persons and property are still strongly challenged. Only recently the Lord Chief Justice of England, to quote the classic words Of Justice Frankfurter, left the bench, as it were, to break a lance for the pristine purity Of Dicey s rule Of law.⁶ Emanating, as it does, from the upper reaches of the English judiciary, and representing a most vigorous exercise, this expedition demands some attention. The inner workings of the departments are subjected to the judicial scrutiny; and the statutes and reports are searched with fruitful results. It cannot be said that his conclusions suffer from any lack Of definiteness. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
