OUR LOVABLE MIRROR IMAGE: THE HISTORY OF THE FUTURE (PAPERBACK)

Booksurge Publishing, United States, 2007. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.What if American-based terrorists had a proprietary communications technology so that the authorities could not stop them? What if these mad terrorists believe that man is hopelessly evil and must be exterminated? Welcome to the year 2060. The American President, RFK, can execute various versions of the current flawed strategy or he can gamble the future of the world on a new strategy. The time is ripe for the most powerful extra-terrestrials, the zetosophers, to introduce themselves. What do these superhuman scientists want in exchange for their help? Nothing but the chance to study human behavior scientifically. Seems uncannily altruistic. Can RFK trust them? Their long-term, radical solution to undermine all terrorism uses the outstanding leadership of the top 25 people, role models for the ages. The zetosophers introduce RFK to two of the other top 25, a British Duke, the brightest human and not so humble, and a very bright yet humble female engineer from California. All three are single, young, and incredibly attractive. The trio teleconference with our lovable mirror images, the namians, who explain to the astonished humans how they conquered evil with a high tech device that uses every being's strongest desire as a carrot. Thus begins the greatest sociological experiment ever conceived.
