Excerpt from A Teachers Course in Physical Training, Designed for Teachers of the Public Schools Twenty years ago, when this course was first published, preparation of teachers for the work had been little more than begun. During these years it has progressed rapidly and now full courses of a half year or more are given in Anatomy, Physiology, Mechanics of Exercise, Physiology of Exercise, and several other topics. Altho students preparing to be specialists in Physical Education pursue this more extensive course, there are still those who wish to read the general theory of the subject within the limits of a single brief volume, and for such this book is prepared.
