They are our loyal companions and fully-pledged members of our families. When they become sick, we are right to treat them with the same care as the human members of our family. We want them to recover quickly and be treated with the best dog health care programs. This journal will allow you to summarize observations on how your companion is reacting to any prescribed dog medicine. Divided into three 30-day sections prefaced by a personal summary (including name of dog, veterinary surgery and medication prescribed) you are able to record the weight, food eaten during each day, as well as any physical or behavioral changes. The information in this handy diary can be referred to as a dog health record during veterinary appointments to assist even quicker recovery.
