By Peter C Spahn

Precis Intermedia, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The Darhren Empire came to power thousands of years ago, absorbing countless worlds in a relentless wave of conquest. Many sovereign systems realized that the benefits of joining the Empire far outweighed the cost of fighting it -- advances in technology swept across the galaxy, Imperial businesses prospered through free trade agreements, and hostiles were routed by the Darhren Military. The Empire is now in a steady state of decline. Despotism, government corruption, and political infighting left it a fragmented shell. Rebellion has begun. Neglected and forgotten worlds contrast the prosperous inner worlds. Could the recent turmoil be a passing phase or is this the beginning of the end? This alternate setting for HardNova 2 is designed to be flexible and to accommodate a wide range of play. It includes new gimmicks, over 20 new species, historical context, galactic factions, focus on a handful of Imperial worlds, introductory scenario, 21 new starships, and 30 new character templates.
