DAMPING ANALYSIS OF FIXED BEAMS

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | An Experimental Approach | The damping characteristics in jointed structures are influenced by the intensity of pressure distribution, micro-slip and kinematic coefficient of friction at the interfaces and the effects of all these parameters on the mechanism of damping have been extensively studied. The ultimate goal of this project is to develop a damping model that is capable of describing the effects of welded joints on a vibrating structure. To estimate the...

Reviews

A whole new e book with a brand new standpoint. I have read through and i also am certain that i am going to planning to read again yet again later on. I found out this book from my i and dad advised this pdf to learn.

-- **Audrey Lowe I**

It is fantastic and great. It is really simplified but unexpected situations from the 50 % in the ebook. I discovered this ebook from my dad and i suggested this book to learn.
