It is expected that twenty per cent of women and ten per cent of men will get depressive illness at least once in their lifetimes. By the year 2020, the World Health Organisation estimates that depression will be the second most common illness affecting society, when measuring the impact of illness on society. Depression is the main cause of suicide all over the world. In an effort to protect your family members from getting depressive illness, it is useful if you understand the fundamental situation that depression occurs when the stresses of life exceed our ability to cope....
