Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Most of us have tried to eat healthy at one time or another. But our daily lives keep getting in the way by demanding our time and attention. Trying to change the way we eat is hard, time consuming, and subject to fail. Perhaps it s because diet books are tough to understand, difficult to eat their way, and we miss the food we really like. After years of trying to understand what actual nutrients I needed to eat to stay as healthy as possible, I finally found a method that works for me. I refer to it as my KISS method. Keep It Simple and Sensible. Unlike some claims, I can t tell you how many pounds you can expect to lose in how many days. But then I don t have to use any of the disclaimers they put in small print such as - results are not typical or results will vary or the individual has been remunerated. But after trying different methods to track how many calories I eat and still stay as close as I can to meeting the Dietary Guidelines for Americans recommendations for nutrition, I found a way for me. I hope it will help you too. The Institute of Medicine stated in the 2010 Dietary Guidelines for Americans, The total number of calories consumed is the essential dietary factor relevant to body weight. And, . .evidence shows the critical issue is not the relative proportion of macronutrients in the diet, but whether or not the eating pattern is reduced in calories and the individual is able to maintain a reduced calorie intake over time. Macronutrient is an interesting word. The Institute...
