Excerpt from Radford s Portfolio of Details of Building Construction: A Remarkable and Unique Collection of Full-Page Plates, Accurately Drawn and Reproduced to Exact Scale, Showing Clearly Every Detail of Modern Building Construction and Finish for Residences of Every Type This is the day of built in space and labor-saving features in the home. Carpenters and builders are called on continually to plan and build buffets and sideboards for the dining room; kitchen cabinets, cases, and cupboards for the kitchen and pantry; wardrobes and linen closets for the chambers; and window seats, fireplaces with decorative mantels, and built-in bookcases for the living room and library. These drawings have been prepared to show exactly how this kind of work is done. Many practical ideas are embodied in them, and new and attractive designs are presented from which the carpenter, the architect, or the builder can draw for all or any of these. In every case complete details are presented, all accurately drawn to scale so that the millwork can be gotten out directly from the Portfolio, if need be, without any redrawing.
