Lots of people hear the name, but most don't know much about them, except that they're dogs. But what is a dingo? How is it different from pet dogs? And is it one of those crazily different Australian animals? While the dingo is not a marsupial like the kangaroo or wallaby, it is still fairly unique, like most animals that are native to Australia. By the end of this book, you will have learned a lot more about dingoes than most people know.
