The book is fantastic and great. It is definitely basic but shocks in the 50 percent in the pdf. Its been printed in an remarkably basic way and it is just soon after i finished reading this publication in which really changed me, change the way i believe.

SECURITY WITHOUT NUCLEAR DETERRENCE (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The nuclear-armed states and their allies cite nuclear deterrence as the primary justification for maintaining nuclear weapons. Its fallacies must therefore be exposed and alternatives offered if they are to be eliminated. As a former operator of British nuclear weapons, Commander Green chronicles the history, practical difficulties and dangerous contradictions of nuclear deterrence. He offers instead more credible, effective and responsible alternative strategies to deter aggression and achieve real security. I commend this book to all who wish to gain a deeper understanding of nuclear deterrence, surely one of the most controversial ideas of our time. H.E. Sergio Duarte, UN High Representative for Disarmament Affairs Green s important book will doubtless cause perturbation amongst his former colleagues and in UK government and defence circles more widely, but they should read it carefully as they approach the decision point for the future of the UK s nuclear deterrent. Vice Admiral Sir Jeremy Blackham KCB, RUSI Vice President One of the best informed and most searching critiques of the central strategic doctrine of the nuclear age - nuclear deterrence - that I know of. Jonathan Schell, author of The Fate of the Earth, Yale University This is a book that shows courage, intelligence and moral integrity of a high order. Professor Achin Vanaik, Delhi University A powerful tour de force of how the concepts and operations of nuclear doctrine and deterrence have shifted during the past six decades of the nuclear age. Dr Rebecca Johnson, Director, Acronym Institute It is hard-won wisdom that today s nuclear armed states and those who would follow in their footsteps would do well to heed. Dr Zia Mian, Princeton University The results of a personal...
