*Extensive guideline! Its such a great go through. It is definitely basic but surprises in the 50 % of the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.*

VISUALIZATION- K-5 The UNEXPLORED FRONTIER by Cynthia Banks-Obinabo BA, OCT What exactly is visualization in the classroom? Are we utilizing cutting edge technology in visual aids available in our classrooms to help students excel or are we using it to replace good teaching? How soon can we start teaching students to visualize? How will this early teaching impact their learning in later years? Could we substitute the words, I have a dream in Dr. Martin Luther King s speech, with the words, I have been visualizing the future? Is Dr. King s vision beginning to be realized? This book is meant for teachers, parents and others interested in the welfare of our children. I will answer all these questions and more. Fasten your seatbelts and come along for the ride.
