Zealot, a charismatic man of great influence whose words of hatred caused an American Holocaust
that took the lives of nearly one hundred thousand people. Now private companies seek to expand
the space program as a way of deflecting the specter of renewed violence. And to help America
forget. But some Americans can t forget. The crew members and supporters of the Excellence, a
ship whose corporate charter is the protection of colonists and travelers in space, have all been
touched by the machinations of the madman who incited a nation to mass murder such as had
never been seen within its borders. A man whom they will have to defeat once again in order to
undertake their mission above the graves of those his followers murdered. The first book of the A.Z.
series presents an introduction to a dynamic cast of characters in a world of advancing technology,
