It is an ancient name of God, and has come to mean to become. Tetragrammaton literally translates to four grammar. What is special about 4? The Matrix of Four The Philosophy of the Duality of Polarity is metaphilosophy for enhancing consciousness. The Matrix of Four presents a formula to develop individual consciousness and surpass the limitations of the traditional social constructs of collective consciousness. It is useful for developing individual consciousness and understanding of the collective consciousness. The metaphilosophy of the Duality of Polarity is based on the mental, physical, spiritual and universal absolutes, each with their own four components. The metaphilosophy begins with absolutes and expands into meditative understandings on consciousness and inspiration for provocative and creative thinking. The same ideas used to prove the metaphilosophy can also be used to implement it. The Matrix of Four enhances in this manner many concepts you might already be familiar with, in ways the thinking models can be applied. The philosophy of the duality of polarity presents universal laws, mathematical concepts and numerous esoteric understandings that can be used extensively all based on four, and more importantly the duality of polarity. The metaphilosophy accesses consciousness tools through comprehension of the four operations of arithmetic, the four characters in The Allegory of the Cave and the Four Wise Monkeys to name a few concepts.
