Personal success is defined as the ability to achieve what you want in life with an action philosophy that makes you happy, but also contributes to the world at a broader level. The guidance in this book is applicable to both personal and business/career situations. As an organizational psychologist, Karel de Laat has provided career and business advice to owners, managers and team members of large businesses for three decades. In his work, he collected numerous anecdotes and used them to motivate and guide his clients in the board room and in the heart of operations. Karel believes that everyone can attain personal and business success. They just have to know the right strategies. Karel s anecdotes and coaching guidelines show in a practical way how each of us can achieve personal and business success if we follow some very basic principles. These basic principles show us how to interact with others in a positive way, use our passion for our life goals to follow our unique path and how to do this in a courageous and sincere way.
