# The Evolution Conspiracy, Vol 1 Exposing Lifes Inexplicable Origins The Cult of Darwin

By Lisa A Shiel

Paperback. Book Condition: New. Kerrie Shiel (illustrator). Paperback. 156 pages. EVOLUTION. A deceptively simple wordthat has transformed the way we look at ourselves and everything aroundus. Once considered unique, man has been reduced to little more thananother animal, thanks to evolutionary theories. Textbooks presentevolution as fact-indisputable, inevitable, and incomprehensible unlessyou hold a PhD in a relevant field. Dont believe it. Anyone can understand evolution. The Evolution Conspiracy exposes the faults in evolutionary theories, the half-truths, and theinconsistencies through a secular lens. Author Shiel takes on thechallenge to demonstrate thatEvolution fails to meet standard criteria for a fact or a theory. No one can satisfactorily define what a species is. The usual definition of evolution is so vague as to be meaningless. No one knows how life originated, or where the original living cell came from. DNA is not infallible (despite what CSI would lead you to believe). Read. Think. Decide for yourself. Shiel is consistently convincing. . . that evolutionary scientists have defined facts and theory to suit themselves. . . and havecircumvented the true scientific method. --Dr. Quinton R. Rogers, Distinguished Professor Emeritus, Dept...
