Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Erythea, Vol. 6: A Journal of Botany, West American and General The valley of Honey Lake is situated in the southeast corner of Lassen County, northeastern California, within a few miles of the Nevada state-line. It lies at the eastern foot of the Sierra Nevada, which forms a dividing wall between the Pacific Slope and the Great Basin, and belongs, botanically as well as topographically, to the latter region. The Sierra Nevada, forming the south and southwest boundary of the valley, rises some 3,700 feet above the lake level, in Thompson s Peak, and presents a very steep, pine-clad front, with but little stream sculpture. The mountain chain on the north and northeast has a more gradual slope, destitute of timber, and attains its highest point at Hot Spring Peak, some 7,600 feet above the sea. The lake bed is about 4,000 feet above sea level. The floor of the valley dips lightly from all sides towards the lake, - which occupies its southwestern portion, - but has otherwise a very even, almost level surface....

### Reviews

*This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- Brennan Koelpin

*Comprehensive guide! Its this type of very good read through. It is actually writer in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.*
