Brand New Book ***** Print on Demand *****.Excerpt from How to See the New York Crystal Palace: Being a Concise Guide to the Principal Objects in the Exhibition as Remodelled, 1854 The following concise and graphic description of the building is copied from the first number of the Illustrated Record of the Exhibition, published by Messrs. Geo. P. Putnam Co.: Reservoir Square, on which the building of the New-York Industrial Exhibition is erected, lies in the north-western part of the city, four miles distant from the Battery* and three and a quarter from the City Hall, between the Sixth Avenue and the Croton Distributing Reservoir, whose massive walls overshadow its eastern side. The distance from the Reservoir to the Avenue is 445 feet; and the width from Fortieth-street in the south, to Forty-second street, its northern limit, is 455 feet. This space is almost entirely occupied by the building. The shape of the ground is unfavorable for architectural purposes; and, aside from the facilities of access afforded by the Avenue railways and numerous lines of stages, there is nothing to recommend this locality, while the...
