International Management English is a ground-breaking new series developed by York Associates, who have been preparing professionals for international work for over 30 years. Managing Change deals with the challenges facing those who are having to lead others through changes in their working life. Managing Change contains eight units, focusing on: change happens; Why change?; communicating change; overcoming resistance; influencing people; developing change leaders; evaluating and measuring; and cultural shifts. In every unit, Managing Change provides comprehensive training in the skills proven to be necessary to operate successfully in the world of international business: relevant language skills, communicative ability, people-management skills and intercultural competence. This training is delivered through extensive speaking and listening activities, professional input, skills practice, intercultural awareness-raising and case-study discussions. In addition, the book provides: an audio CD; a learning diary; a needs analysis; a glossary of key terms; tips for more effective language learning and how to improve performance at work; the opportunity to develop a personal action plan; and full answer keys and scripts of all the recordings.
