Createspace, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. This book on initial inspection would appear to be a biography but it is, he believes, much more than that and as such should be read with a view to getting an insight into the author's thoughts on life's theatre as it plays out around us all. Home and work environment, mid twentieth century style, give way to his comment on many aspects of the design failures which have sort of painted us all into the corner, with only bigger and bigger Bucks to get us out. On the larger and more pressing issues, his main reason for writing this will leave the reader with little doubt on this score! An appendix which he felt needed an airing is an added operation which he tables for debate but please don't take it out on him; or me, should he say; He's spaced out enough but Time will Tell, in the end! P.S. He says he'd love to come back and give the comment I told you so but being a realist leaves him with some doubt on this possibility let alone probability! Perhaps he should have gone to Universe City in his earlier days that is! A larger print version of the author's thoughts on the Universe as he sees it is available under the title LAYMAN'S UNIVERSE.
