Lulu.com, United Kingdom, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. This book argues that Einstein s SR and GR theories are not practical solutions. His SR paper is about relative time, not actual tims with no quantum element, making it meaningless in the real world. Time is simply a mathematical invention and cannot dilate. It is motion that slows as velocity increases, and this is pure physics, not relativity. Spacetime is about relative time. Space has no link with actual time. General Relativity is not a quantum solution for gravity. A simpler quantum solution for gravity exists in proton radiation and wave polarity. Resistance to motion is not due to mass. An electromagnetic wave is mass and momentum, and the time for its creation from added energy is the cause of resistance to motion. A charged particle has no mass. Correct these and Duality, Dark Matter, Dark Energy, and Gravity become obvious, including how to produce cheap, clean energy from gravity. This is not a text book and it is not claimed that everything in it is correct.
