The tunnel had been sealed off completely with a train and other treasures in it. They had discovered that the train had been hid in World War II by Adolf Hitler in effort to hide the gold and treasures of the 3rd Reich. Among these treasures were also blue prints, art and books. Some of the books were written by his scientists on topics such as chemical warfare, time travel, religions, magic and space. Also along with those books was one called Masak Manusia translated means To Cook Human that was wrote around the 1600 s. How Hitler obtained this book or why he needed this cannibalistic book it is unknown. What is known is that the tribal decedents of the writers were not known to exist until the 1970 s and the 3rd Reich had position of the book in the 1940 s. This was the tribal method of scared cooking.
