It is hard coded into the creation process. God speaks and, out of nothing, something happens. Planets are created, stars are scattered, and seasons are set in motion. If that is the case, what about other concepts in Scripture. Concepts such as sin, giving, and redemption. Do they get bigger as well? For that matter, what about us? Were we designed for something bigger also? Laid back and straight forward, Growing Mustard explores these concepts and answers the above questions in a way that is engaging and enlightening. Your faith will be refreshed and your perspective will be enlarged as you discover that everything really does get bigger.
