Taylor Francis Inc, United States, 2016. Hardback. Condition: New. Language: English . Brand New Book. The evidence is undeniable. By any measure, the US spends more on healthcare than any other country in the world, yet its health outcomes as measure by longevity are in the bottom half among developed countries, and its health-related quality of life has remained constant or declined since 1998. In addition to high costs and lower than expected outcomes, the healthcare delivery system is plagued by treatment delays as it can take weeks to see a specialist, and many people have limited or no access to care. Part of the challenge is that the healthcare delivery system is a large, complex, and sophisticated value creation chain. Successfully changing this highly interconnected system is difficult and time consuming because the underlying problems are hard to comprehend, the root causes are many, the solution is unclear, and the relationships among problems, causes, and solution are multifaceted. To address these issues, the book carefully explains the underlying problems, examines their root causes using information, data, and logic, and presents a comprehensive and integrated solution that addresses these causes. These three steps are the methodological backbone of this book. A solution depends on understanding and applying the principles of patient-centered care (PCC) and resource management. PCC puts patients, supported by their primary care physicians, back in the role as decision makers and depends on patients being responsible for their health including making good life-style choices. After all, the best way to reduce healthcare costs and increase quality of life is to improve our health and wellness and as a result need less care. In addition, health insurance must be rethought and redesigned so it is less likely to lead to overuse. For many people with health insurance, the out-of-pocket...
