LEARNING BAYESIAN NETWORKS FROM TIMED DATA

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | An application of the Timed Observations Theory | Learning a Bayesian Network from timed data without prior knowledge to the dynamic process that generated the data is the main subject of this document. The proposed algorithm, called Tom4BN, is based on an adequate representation of a set of sequences of timed observations and uses the BJ-Measure, an information based measure adapted to timed data to evaluates the quantity of information flowing along...
