Reviews

A must buy book if you need to adding benefit. Better then never, though i am quite late in start reading this one. I am very happy to inform you that this is basically the very best book we have study during my own life and could be he finest ebook for possibly.
(Rodger Hane)

DRUPAL 6 SOCIAL NETWORKING

Packt Publishing. Paperback. Condition: New. 312 pages. Dimensions: 9.1in. x 7.5in. x 1.0in. Build a social or community web site, with friends lists, groups, custom user profiles, and much more Step-by-step instructions for putting together a social networking site with Drupal 6 Customize your Drupal installation with modules and themes to match the needs of almost any social networking site Allow users to collaborate and interact with each other on your site Requires no prior knowledge of Drupal or PHP; but even experienced Drupal users will find this useful to modify an existing installation into a social web site In Detail Drupal is ideally equipped to be used as a base system for creating a custom social networking site like Facebook and MySpace. While these large social networks have their place, niche social networking web sites can help promote businesses, products, projects, and hobbies of any nature. This book provides careful instructions and clear explanations to take you through the setup and management of your social network site, covering topics from users to marketing to maintenance. It will help you create your own social networking site, suitable for whatever audience you decide! This book will take you from the very basics of both Drupal and Social Networking right through to more complicated aspects, like creating your own custom design and features for the site. With no experience of Drupal required, the book will introduce you to this award-winning CMS and carefully take you through the steps to create a social networking site from it. As the book progresses, you will learn how to add to and expand your social networking site, adding more features and adding value for your users, and how to make your users feel part of the community. Social networking web sites rely on their users contributing to...
