paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 334 Publisher: China Renmin University Press Pub. Date :2009-02. computers have in-depth aspects of our lives. in the office. learning and entertainment playing fields the role. The most basic computer operations. the most common and one of the most important operation is the text input. Both figures. the text writing. Internet communications. or application software. are inseparable from the computer typing. We know Pinyin text input method and font type can be divided into two categories. no matter which word you choose to enter the program. summed up are inseparable from this category. For readers who have not learned Pinyin in terms of root principles and handwriting input method because habits are associated. it is easier to use. Root input method is the most representative five-stroke input method. Wubi is an image code input method. it works is to split into separate characters radical. radical (referred to as five-stroke input method in root). then the corresponding input to the computer code . the computer program can give the corresponding Chinese characters. Wubi input method with less coding. low weight code. not dialects restrictions. etc. so welcomed by the majority of computer users; If you want to be a typing expert. five-stroke input method is a good choice. This book is for novice tailored learning Wubi typing books. tutorials. and check the dictionary both techniques two functions. First half of the book with full color printing. with 5 detailed description of the five-stroke input method. Chapter 1 introduces the basic operation of the computer. keyboard. and Wubi input method based knowledge. Chapter 2 - Chapter 4 describes the use of five-stroke input method. Chinese characters split. using the Wubi...
