

## Groundwater quality

By Ncube, Mercy

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Geochemistry, genesis and health implications of fluorotic groundwater in South Western Zimbabwe | Chronic consumption of excess fluoride above the WHO limit of 1.5mg/L might lead to dental, and in extreme cases skeletal and crippling fluorosis. This book aims to illustrate the study results found when screening fluoride presence and investigating its probable sources in suspected high fluorotic areas in southwestern Zimbabwe. It was found out that 40% of 220 groundwater samples contained fluoride above WHO limit. Thirty-five percent (35%) out of 467 pupils examined had dental fluorosis with an average prevalence rate of 65%. Geology played a major role in influencing the groundwater quality. These analysis is mainly targeted for the groundwater resources and treatment, climate change and public health and low cost technology developers. | Format: Paperback | Language/Sprache: english | 228 pp.

### Reviews

*Thorough manual for ebook fans. it had been writtern quite properly and valuable. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- Dr. Catherine Wehner

*Absolutely among the best book I have possibly go through. I have go through and that i am certain that i am going to gonna read through once again again in the future. I am just delighted to tell you that this is basically the finest book i have got go through within my personal existence and could be he finest book for ever.*

-- Brian Bauch
