

Predators at Risk: In the Pacific Northwest

By Nelson, Dan A.

Mountaineers Books, Seattle, Washington, U.S.A., 2000. Soft cover. Book Condition: New. First Edition. An insightful look into the background of current predator controversies, offering readers a better understanding of the species that inhabit the wild areas of the Pacific Northwest. Amazed by the general public's near-total lack of understanding when it comes to predator issues, Dan Nelson seeks to separate the fact from the fiction surrounding these wild animals of the Pacific Northwest. Offering insights based on fair and comprehensive research, Nelson explores the natural habits of wolves, cougars, coyotes, lynx, black bears, and grizzly bears. He explains each species' current status, the policies surrounding it, human perceptions of it, and what the future might hold for its survival in this region.

Reviews

A new e book with a brand new standpoint. I am quite late in start reading this one, but better then never. I discovered this ebook from my i and dad advised this publication to understand.

-- Jada Franecki II

Here is the very best book i have got read through until now. I could possibly comprehended everything using this composed e publication. You will not sense monotony at whenever you want of your time (that's what catalogues are for concerning should you ask me).
