

The Vickers-Maxim Machine Gun

By Martin Pegler, Peter Dennis

Osprey Publishing. Paperback. Book Condition: new. BRAND NEW, The Vickers-Maxim Machine Gun, Martin Pegler, Peter Dennis, The world's first self-powered machine gun, the Maxim gun became a potent symbol of Victorian colonialism in the closing years of the 19th century. It was the brainchild of Sir Hiram Maxim, the American-born firearms inventor who founded the company bearing his name with financing from Albert Vickers, who became the company's chairman; Maxim's company was absorbed by Vickers, Sons and Company in 1897. Subsequent variants in British, German and Russian service - the .303in Vickers (1912), 7.92mm MG 08 (1908) and 7.62mm PM M1910, respectively - dominated both the Eastern and Western Fronts during World War I and soldiered on into World War II, while the Vickers remained in front-line British service essentially unchanged until 1968. Featuring specially commissioned full-colour artwork and written by a noted authority, this is the engaging story of the Maxim and its descendants, the innovative rapid-fire weapons that saw combat with British, German, Russian and other forces in the late Victorian era and throughout the world wars.

Reviews

This book is definitely worth acquiring. I have go through and so i am certain that i will likely to read through again again in the future. Its been printed in an exceptionally basic way in fact it is only after i finished reading this publication in which actually altered me, change the way in my opinion.

-- Andres Bashirian

Comprehensive guide for publication fanatics. This really is for all who statte there had not been a well worth reading through. I discovered this ebook from my dad and i encouraged this book to find out.
