MECHANICS AND PROPERTIES OF COMPOSED MATERIALS AND STRUCTURES

Condition: New. Publisher/Verlag: Springer, Berlin | This volume details the latest trends in characterization and developments of composed materials and structures, including textile composites, sandwich plates, hollow sphere structures, reinforced concrete as well as classical fibre reinforced materials. | This collection of recent activities provides researchers and scientists with the latest trends in characterization and developments of composed materials and structures. Here, the expression 'composed materials' indicates a wider range than the expression 'composite material', which is many times limited...
