Design for All (Design Philosophy)

By Frederic P. Miller

Alphascript Publishing. Taschenbuch. Condition: Neu. Neuware - Design for All is a design philosophy targeting the use of products, services and systems by as many people as possible without the need for adaptation. Design for All is design for human diversity, social inclusion and equality. According to the European Commission, it 'encourages manufacturers and service providers to produce new technologies for everyone: technologies that are suitable for the elderly and people with disabilities, as much as the teenage techno wizard.' Closely related to the concepts of Inclusive Design or Universal Design, the origin of Design for All lies in the field of barrier free accessibility for people with disabilities, where it has been recognised that this provides benefits to a much larger population. 84 pp. Englisch.
