You wont really feel monotony at whenever you want of the time (that's what catalogues are for relating to if you request me).

Excerpt from Experience With a Model of Sequential Diagnosis: 296-67 In recent years, a number of studies of the use of computer programs in diagnosis have been performed. Central to each of these efforts has been the development of an explicit, precisely formulated procedure for diagnosis. Such a development is a prerequisite for computer programs of this type.
