## BLOCKS AND BEYOND: STRENGTHENING EARLY MATH AND SCIENCE SKILLS THROUGH SPATIAL LEARNING

Brookes Publishing Co, United States, 2010. Paperback. Book Condition: New. 249 x 175 mm. Language: English . Brand New Book. Spatial development should be part of every young child s education it s linked with higher achievement not just in math and science, but across all academic areas. Now early childhood educators have a guidebook to help them seamlessly integrate spatial learning into their everyday curriculum. Focusing on areas key to academic success-math, science, art and literature, and social studies-early childhood expert Mary Jo Pollman gives teachers research-based insights and ready-to-use activities for promoting children s spatial development throughout the school day. Developed for use with children in preschool through third grade, this innovative teacher training resourceAligns with key focal points specified by the National Council of Teachers of Mathematics, the National Math Panel Report, and the National Science Education StandardsHelps children progress in specific areas where U.S. students are falling behind particularly geometry and geographyImproves teacher quality helps them plan a successful, well-rounded curriculum with creative, age-appropriate activitiesStrengthens the home-school learning connection with suggestions for games that parents and children can do togetherUses easy-to-find materials shows how to improve spatial skills with everyday items like blocks, play dough, puzzles, globes, and objects found in natureIs fully supported by the latest research and highly respected educational theories, clearly explained throughout the book so teachers know the why behind the howProvides a foundation for later success in science, technology, engineering, and mathematics fields A great inservice professional development resource and an essential text for preservice teachers, this book is key to creating a curriculum that actively promotes spatial development and sets the stage for strong math, science, and other academic skills. See which domain of school readiness in the Head Start Child Development and Early Learning Outcomes Framework this book addresses.
