

The Evolution of Conceptual Art in America (Paperback)

By Kempton Mooney

Createspace, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Conceptual art as a popular phenomenon, known as conceptualism, had a profound impact upon the art world as a whole because it could manifest itself in any material or form. This allowed conceptual artists to approach themes that artists working in traditional materials could not. The term conceptual art was defined by Sol LeWitt, a pioneer of the movement, to describe diverse forms of written and visual documentation, including textual data, diagrams, drawings, maps, and photographic records. Stressing the use of language and thought process, the movement was the culmination of written information being enacted as art, something begun early in the century. In minimizing the relevance of the permanent visual object, conceptual art also demonstrated a disappointment with the museum and gallery system. It brought forth issues such as art as a commodity, what art could be, and art's role in society. It set out to shock the art community, to change the language of art, and to introduce a new way of perceiving and discussing art. Though it produced few known master works, conceptualism is credited with breaking from...

Reviews

Complete guideline! Its this type of great read through. it absolutely was writtern quite perfectly and helpful. I am very happy to explain how this is basically the best book i actually have read through during my personal life and can be he very best book for at any time.

-- Joshua Gerhold PhD

A very awesome book with perfect and lucid reasons. It really is basic but shocks within the 50 percent of the book. Its been designed in an exceptionally easy way and is particularly merely right after i finished reading this ebook where in fact changed me, change the way i think.

-- Meagan Roob
