## MATERIALS AND METHODS IN HIGH SCHOOL AGRICULTURE (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Materials and Methods in High School Agriculture Much is being said and written in these days as to agricultural education. It is being conceded that we need and must have more agricultural and other vocational instruction in our public schools. The Universities provide higher instruction in agriculture in admirable ways. Fairly satisfactory outlines and teaching methods have been worked out for agricultural instruction in the elementary schools. In the secondary schools, however, agricultural teaching is in a very chaotic condition. High schools located in agricultural communities or in towns or cities depending largely upon agriculture for their prosperity should provide agricultural courses. As to the number or nature of these courses there is little agreement. Ideas regarding the proper materials and methods to be employed in teaching agriculture in the high school lack clearness, definiteness, and pedagogical foundation.
