

President Trump Speaks Latin: The Inaugural Speech (Paperback)

By T J Price

Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: Latvian . Brand New Book ***** Print on Demand *****.Judging by the outcome, Donald J Trump is the greatest orator of our times. The media were against him and so were women and ethnic minorities (according to the pundits). Moreover, the Republicans were even more hostile to him than the Democrats. Surely no one has ever overcome such odds to achieve power. So, what is his secret? An answer might well be found in this Latin version of his inaugural speech. Latin is the language honed to perfection by the most consummate political fixers the world has ever known, and here we find that Latin's unambiguous clausal structures and unremitting realism strip away the metaphorical mush that infects English to leave the plain truth. Furthermore, several renowned patricians at Rome took up the plebeian cause and in doing so they no doubt abandoned the high style of Cicero when addressing the common people. Unfortunately, speeches of this sort have not survived, but would they have been so dissimilar to the speeches of Donald Trump when Rome was just divided as America seems to be today?.
