Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from *Graphic Algebra for Secondary Schools* This pamphlet is intended to meet the growing demand in this country for graphical methods and illustrations in connection with elementary Algebra in the secondary schools. A recent committee of the American Mathematical Society, in formulating standard college entrance requirements in Algebra, uses this language: The use of graphical methods and illustrations, particularly in connection with the solution of equations, is also expected. This little book is the authors interpretation of the committee s recommendation both as to kind and amount of such graphical work. It may be used to supplement any text-book in Algebra. In plotting the graphs of equations the pupil should use squared paper similar to the sample sheet in the back of the pamphlet. The teacher or pupil wishing further information on the subject may consult any standard work on Analytic Geometry. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
