Bugging Out, and its companion volume Bugging In, together cover options for the scope of incidents from short-term power cuts and industrial action, through flooding and fire, to pandemic and war. The information is applicable worldwide but these books are different because unlike most of the genre they are written with people in the UK and Europe very much in mind. Reading Bugging Out, and applying the advice given, can make the difference between days or weeks of inconvenience that might be unavoidable but survivable, or a nightmare of personal and financial loss and bureaucratic turmoil, or even the deaths of you and your family. Take control of your fate. Read this book and then take action, to safeguard your family and their future.
