It wasn't tanks and artillery that killed. It was inevitable. A virus either mutated or was created that had no antidote, and it spread worldwide. As days turned into weeks, and then into months, the virus showed no signs of abating. Entire countries were dying or had died. Reviews

An incredibly amazing ebook with perfect and lucid answers. It is written in basic terms and never difficult to understand. It's been written in an exceptionally basic way and it is only right after I finished reading this ebook in which it in fact modified me, affected the way I really believe.

Extremely helpful for all classes of individuals. Better than never, though I am quite late in starting to read this one. I realized this publication from my mom and dad suggested this ebook to discover.
