You would think that saying its actual meaning, Where Does This Fit In My Testimony, would be so much easier but as complicated as the hashtag is, so is life. Life itself is not just days of events, but events that eventually make you step back and question what relevance does that event have. What is its purpose? So it is only befitting to throw your hands up and say WDTFIMT. WDTFIMT is a collection of life events, epiphanies and vulnerable moments that will convince any reader that their life is not normal either. As we strive to live a normal life, there is an invisible script that we get included in when the time is right. This book does not need to be read in the order that it was printed. The book wasn't written in the order that it was printed. Things in life never happen in the order that we expect it to. But during the out of sequence life events, we can guarantee that there is not only a lesson to be learned there is a moment when we realize that we were created uniquely and have been entrusted with our personal testimonies. As you read this book, you are invited to not only embark on a journey of self-discovery. You are invited to find the testimony within you in order to help someone else make it through life.
