The very best way to learn a new language is to stop thinking in your old language and immerse yourself in the new. But at the beginning you just don't know enough words to immerse yourself - kind of a catch-22. So the purpose of this book is to help you quickly build an incredibly large vocabulary and gain confidence. To be most effective, you should know the basics of French grammar from at least 6 months of high school French or a semester of college French. The vocabulary words in this book are extremely easy to memorize - you already know most of them! And by quickly boosting your vocabulary, you will also quickly boost your confidence in speaking, reading and writing French. Why is confidence so important? As your confidence increases, your ability to absorb a new language speeds up exponentially.
