

## On the Aesthetic Education of Man

By Friedrich Schiller

Penguin Classics. Paperback. Condition: New. 208 pages. German poet and philosopher Friedrich Schillers famous text on art, politics, and society. The artist is certainly the child of his age, but all the worse for him if he is at the same time its pupil, even worse its minion. One of the most profound works of German philosophy, Friedrich Schillers *On the Aesthetic Education of Man* examines politics, revolution, and the history of ideas in order to argue that art should have a greater role in shaping society. Deeply disillusioned with the course of the French Revolution, Schiller expressed his complaints in a series of letters to a patron, an impassioned attempt to drag mankind upward from failure to greatness by placing ideas of aesthetic education at the heart of the human experience: Our era has actually taken both wrong turnings, and has fallen prey to coarseness on the one path, lethargy and perversity on the other. Having strayed along both paths, it is beauty that can lead us back. One of Germany's greatest political statements from a time of revolutionary change, Schillers arguments are as arresting, challenging, and inspiring today as when they were first written. ### Reviews

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

*-- Ally Reichel*

*This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You won't feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).*

*-- Prof. Kirk Cruickshank DDS*
