Technical Communication, Fourteenth Edition builds upon the authority of the previous editions by clearly guiding students to write documents persuasively, effectively, and with an eye towards technological innovations and global communications. It incorporates the interpersonal, logical, ethical, and cultural demands of these different forms of workplace communications and provides students with the necessary skills to navigate these nuisances. Building on research and writing skills and touching on the importance of ethics, the authors prepare students for technical writing in any field. \* The 8th Edition introduces sweeping changes to the philosophy and details of MLA works cited entries.
