Createspace Independent Publishing Platform, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The second half of the cross of Christ is not just a New Testament concept. It runs throughout the Bible from beginning to end. The cross applied to our lives through a God-composed journey of faith is a divine creation that elevates the Christian life above horizontally conventional normalcy. The narrative stories of faith in the Bible rise above human literary invention, beyond the creative imagination of human experience, because they involve the participation of the living God. This book explores this theme in the life-stories of some of the great characters of the Bible as their experiences relate to our present journeys of faith.
