Univ Europeenne, United States, 2012. Paperback. Condition: New. Aufl.. Language: French . Brand New Book. L Algerie a connu depuis la colonisation la marginalisation de son mode de production locale. Apres l independance le phenomene s est accentue avec la crise du logement et l accroissement demographique. Car, pour faire face a cette crise, l etat a recourt a la standardisation et a la prefabrication du logement ignorant a son tour tout systeme d auto-construction populaire. Ce mode de construction est toujours vu a travers ses aspects negatifs en ce qu il echappe aux regles juridiques, alors que ses valeurs positives resident dans son adaptation aux pratiques socio-spatiales. Cet habitat s adapte aux conditions economiques et socioculturelles des habitants a revenu modere et traduit les valeurs traditionnelles toute en favorisant leur evolution. Notre etude sur l habitat populaire auto-construit ne prone ni un retour au traditionnel, ni une recherche de l exceptionnel, mais de saisir a travers l evolution de cet habitat, la nature des mutations contemporaines et les perspectives qu elles ouvrent dans le cadre historique, afin de donner une nouvelle dynamique a la pratique architecturale et urbaine, s inspirant des enseignements du passe et repondant aux exigences du present.
